Strikes at the root of disease by purifying the blood, restoring the liver and kidneys to healthy action, invigorating the nervous system. Vegetine

is not a vile, nauseous compound, which simply purges the bowels, but a safe, pleasant remedy which is sure to purify the blood, and thereby restore the health. Shop four doors South of Joy Hou-e, Main reët, Findlay, Ohio. 2. Vegetine is now prescribed in cases of Scrofula and other diseases of the blood, by many of the best phy-sicians, owing to its great success in curing all diseases of this nature.

Vegetine Does not deceive invalids into false hopes by purging and creating a fictitions appetite, but assists nature in clearing and purifying the whole system, leading the patient gradually to perfect health. Vegetine

Was looked upon as an experiment for some time by some of our best physicians, but those most increduious in regard to its merit are now its most ardent friends and supporters. Vegetine Opposite the Joy House,

Says a Boston physician, "has no equal as a blood purifier. Hearing of its many wonderful cures, after all other remedies had failed, I visited the laboratory and convinced myself of its genuine merit. It is prepared from barks, roots and herbs, each of which is highly effective, and they are compounded in such a manner as to produce astonishing results." Vegetine

Is acknowledged and recommended by physicians and apothecaries to be the best purifier and cleanser of the blood yet discovered, and thousands speak in its praise who have been restored to health.

PROOF. WHAT IS NEEDED. Boston, Feb 13, 1871.

Mr. H. R. STEVENS:

Dear Sir—About one year since I found myself in a feeble condition from general debility. VEGETINE was strongly recommended to me by a friend who had been much benefited by its use. I procured the article, and after using several bottles, was restored to health and discontinued its use. I feel quite confident that there is no medicine superior to it for those complaints for which it is expectable prepared, and would for which it is especially prepared, and would cheerfully recommend it to those who feel that they need something to restore them to perfect health.

Respectfully yours.

Report from a Practical Chemist and Apothecary. Boston, Jan. 1, 1874.

Dear Sir—This is to certify that I have sold at retail 15414 dozen (1852 bottles) of your VEGE-TINE since April 12, 1870, and can truly say that TINE since April I2, 1870, and can truly say that it has given the best satisfaction of any remedy for the complaints for which it is recommended that I ever sold. Scarcely a day passes without some of my customers testifying to its merits on themselves or their friends. I am perfectly cognizant of several cases of Scrotulous Tumors being cured by VEGETINE alone in this vicinity.

Very respectfully yours,
